What is this product?

Type

This product is an investment fund.

Term

The Fund is established for an unlimited duration, with the possibility for the Board of Directors to decide the termination of the Fund at its sole discretion.

Objectives

The Fund seeks to increase the value of its assets over the long term by investing predominantly in transferable equity securities such as equities, other equity shares such as co-operative shares and participation certificates issued by, or warrants on transferable equity securities of companies which enable or profit from innovative technologies, including but not limited to artificial intelligence, cloud computing robotics.

Selection of investments will rely on a combination of financial criteria, as well as Environmental, Social & Governance criteria. The Fund promotes environmental and social characteristics and qualifies as an investment product in accordance with article 8(1) of Regulation (EU) 2019/2088 on sustainability related disclosures in the financial services sector. In order to define the investable universe, the Fund integrate analysis of sustainability issues and risks into the investment decisions as part of the overall approach to sustainable investment, helps by the in-house ESG scoring framework. the selection process is composed of numerous steps as follows: (i) the Fund applies the responsible business Conduct policy of the Investment manager to meet Investment manager criteria ou its sector policy on sensitive sectors. Then, the Investment manager applies the ESG analysis based on the inhouse developed ESG methodology by the Investment manager. Next to that, the Investment manager establish the ESG score of each company on the three pillars: Environmental, Social and Governance. The Investment manager assesses the good governance practices by its own in house dashboard on the basis of list of criteria (board structure, management discipline..).

As part of the Management Company Sustainable Investment Policy, the Fund complies with the sets of exclusions applying to article 8 investment product. Next to that, the Fund will not invest in companies that have a strategic involvement in alcohol production. Methodological limitations can be assessed in terms of: nature of ESG information (quantification of qualitative data), ESG coverage (some data are not

available for certain issuers) and homogeneity of ESG data (methodological differences).

The minimum asset allocation in such securities on a consolidated basis (direct and indirect investments) will be of 60% of the Fund's net assets (after deduction of the Fund's cash). Moreover, the minimum ownership in equity securities will be of 75% of the Fund's net assets.

Investments in debt securities do not exceed 10% of its net assets.

The Fund may invest for maximum 10% of its net assets in funds that have been selected in accordance with a number of qualitative and quantitative criteria.

This Fund is actively managed and is compared to the MSCI World TR Net Index for performance and risk level indicator purposes. However, the reference to this index does not constitute any objective or limitation in the management and composition of the portfolio and the Fund does not restrain its universe to the index components. The index does not evaluate or include its constituents on the basis of environmental and/or social characteristics and is therefore not aligned with the ESG characteristics promoted by the Fund.

Therefore returns may deviate materially from the performance of the reference index.

The base currency of the Fund is EUR.

The unit is a distribution unit. Dividends will be paid annually.

Investors are able to redeem on a daily basis (on Netherlands bank business days).

What happens if ABN AMRO FGR ABN AMRO BNP Paribas Disruptive Technology Equities is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depositary. Should we default, the depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	699 EUR	1,097 EUR
