What is this product?

Type

This product is an investment fund.

Term

The Fund is established for an unlimited duration, with the possibility for the Board of Directors to decide the termination of the Fund at its sole discretion.

Objectives

Boston Common US Sustainable Equities belongs to the category of Single Manager Funds.

The Fund seeks to increase the value of its assets over the long term by investing in transferable equity securities such as equities, other equity shares such as co-operative shares and participation certificates issued by, or warrants on transferable equity securities of, companies which are domiciled in or exercise the predominant part of their economic activity in North America.

The minimum asset allocation in such securities on a consolidated basis (direct and indirect investments through the use of derivative instruments) will be of 60% of the sub-fund's net assets. Moreover, the minimum sub-fund's investment in equity securities will be of 75% of the sub-fund's net assets.

The sub-fund may invest up to 10% in ADR/GDR and may also hold on an ancillary basis cash and cash equivalents including certificates of deposit and short-term deposits.

The sub-fund may also hold on an ancillary basis cash and cash equivalents including certificates of deposit and short-term deposits.

Sustainable Investment Policy

The sub-fund contributes to environmental and social objectives and qualifies as an investment product in accordance with article 9 of Regulation (EU) 2019/2088 on sustainability related disclosures in the financial services sector. The sustainable objective of the fund is to generate The sub-fund contributes to environmental and social objectives and qualifies as an investment product in accordance with article 9 of Regulation (EU) 2019/2088 on sustainability related disclosures in the financial services sector.

In that respect, the eligible universe is determined by using proprietary ESG framework combining:

- Top-down sector research to identify the leading practices and companies in each sector.

- Bottom-up research that integrates comprehensive ESG criteria with financial research to identify Sustainable companies and companies with positive ESG trajectory where the potential engagement can boost the company even further.

The sub-fund will be composed of issuers which are positively exposed to three long-term sustainable themes such as (i) "Climate Change & Earth Renewal", (ii) "Inclusion & Empowerment" and (iii) "Health & Community Well-being", while still providing long term capital appreciation

The investible universe is reduced by at least 20% due the implementation of sustainability criteria.

The External Investment Manager has its own internal rules regarding exclusions and thus will not invest in companies that have a strategic involvement in nuclear. Next to that, the External Investment Manager is aiming to avoid investing in companies primarily engaged in the extraction exploration, production, manufacturing or refining of fossil fuels but may invest in companies that use fossil fuel-based energy as an input within their operations or that distribute fossil fuels. Next to these exclusions, the External Investment Manager should pass the exclusion rules of the Sustainable Investment Policy of the Management Company as stated in the Book 1 of the prospectus.

The methodological limitations can be assessed in terms of the nature of the ESG information (quantification of qualitative data), ESG coverage (some data are not available for some issuers) and the coherency of ESG data (methodological differences).

The derivative instruments are not covered by the ESG analysis.

Derivative instruments

The Fund may invest up to 10% of its net assets in derivative instruments for investment, efficient portfolio management or hedging purposes.

Relation to the Reference Portfolio This Fund is actively managed and is compared to the MSCI USA TR Net for performance and risk level indicator purposes. However, the reference to this Reference Portfolio does not constitute any objective or limitation in the management and composition of the portfolio and the Fund does not restrain its universe to the Reference Portfolio's components. The Reference Portfolio does not evaluate or include its constituents on the basis of environmental and/or social characteristics and is therefore not aligned with the ESG characteristics promoted by the sub-fund.

Therefore, returns may deviate materially from the performance of the Reference Portfolio.

The base currency of the Fund is USD.

Income is systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days).

What happens if ABN AMRO Funds Boston Common US Sustainable Equities is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depository. Should we default, the depository would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 USD is invested.

Example Investment 10,000 USD	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	783 USD	1,513 USD
Annual cost impact*	7.8%	3.5%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 15.2% before costs and 11.7% after costs.
